

NovaFix adhesive & NovaSpeed spray activator for stainless steel frame inserts.

Preventive maintenance for high economy.

Grain Processing Customer Service

The NovaFix adhesives and NovaSpeed spray activators have been developed for the optimal adhesion of sieve fabrics on Novapur stainless steel frame inserts.

NovaFix

Adhesive for stainless steel frame inserts applied for covering new frames.

NovaSpeed

Spray activator (accelerator) for reducing the curing time of a wide variety of cyanoacrylate adhesives applied to stainless steel or aluminum frame inserts.

We would be pleased to service your sieve frames and frame inserts for you.

Please contact your Buhler service partner.
