Crumbler DFZL. PITSTOP spare parts packages.

fast – compact – perfect

Original Bühler
parts for longer
lifetimes.

Grain Processing
Customer Service

Every year the Crumbler DFZL breaks up to 300,000 tons of your product. Due to this enormous throughput the machine is exposed to constant wear and tear.

However, the specially assembled, self-contained **Emergency**, **Security** and **Preventive** packages enable you to ensure the top condition and availability of your high-performance machines at all times – at attractive prices.

fast – compact – perfect
the PITSTOP for your Crumblers.

Emergency
reduces the risk of failure of your system to virtually zero.

Security
maintains the unrestricted service of your system in terms of performance and quality.

Preventive
ensures a consistently high quality thanks to the permanent availability of wear parts.

Your benefits

Fast responses

- parts available on site
- top system uptime

Compact spare and wear parts packages

- professional maintenance
- prevention of production loss

Perfect genuine Bühler parts

- value retained by preventive maintenance
- best product quality thanks to perfect maintenance
