Milling Course for Executives - South East Asia. 2019

Dear distinguished customers,

We offer a practical oriented training course, which will be held by a senior instructor delegated from the headquarters in Switzerland to the Training Centre in Wuxi, China.

This Executive Milling Course combines all important basic technological and economic aspects of a flour milling operation, including practical lesson in our modern School Mill.

The course will be held in English and covers all relevant subjects in the value chain. It gives participants an excellent opportunity to increase their personal milling knowledge which will allow them to better control their operations and business – it's an opportunity to improve your plant performance!

Course date: 21st – 25th Oct. 2019

Target Group: Technical Directors, Production Executives and Mill Owners.

Costs for training and accommodation: US$ 2900 per person, per week

Notes: Minimum of 8 participants per session needed to conduct the course.
Milling Course for Executives - South East Asia.
