

Welcome to Bühler Ukraine.

Your experienced partner. Every day, billions of people come into contact with the technologies of the Bühler Group that support their specific foodstuff and mobility needs. Thanks to sophisticated industrial production technologies and solutions, Bühler makes a significant contribution in terms of supporting the population of the planet with food products, paying particular attention to food safety. Furthermore, Bühler is a leading provider of die casting, wet grinding, and surface coating solutions, widely used in applications in the automotive industry and in the production of optics, electronics, glass, paint and packing technologies. Bühler has been operating for the past 125 years in Russia and the CIS countries, and offers the complete range of Bühler solutions to customers in the region.

For individual solutions.

Bühler's central focus as a company is the success of the customer. The company offers industrial equipment, services and technology, which ensure a competitive advantage in the market and strengthen the added value of the customer's products. Bühler provides individual solutions which guarantee maximum benefit. The breadth of services to support clients ensures effective use of equipment during the entire lifecycle.

Strong local presence.

More than 120 employees are dedicated to engineer the customers' success in the region. They are active in eight business areas and five service stations, providing relevant services which meet the requirements of local clients, such as the sale of spare parts from local stocks, technical services and maintenance work. The office in Moscow coordinates sales and offers clients a full range of services in Russia and Belarus. The office in Kiev is responsible for Ukraine, Moldova and Georgia, and the office in Almaty is responsible for Kazakhstan, Uzbekistan, Kyrgyzstan, Tajikistan and Turkmenistan. A strong local presence allows the company to react quickly to any request and guarantees fast delivery times.
