Buhler Scale Installation

Buhler Scale Controller MEAG

Have your equipment regularly inspected and updated to ensure optimal performance and longevity.

Buhler is offering a solution to your maintenance needs. You can have a qualified service technician visit your plant for one flat rate and inspect your Scale, Flow Balancer and Moisture System. This visit will give you the confidence that your equipment is performing at an optimal level and you are receiving maximum value from your installation.

Apart from that you have the opportunity to upgrade your scale control units by the new type MEAG.

Please contact us for a quote tailored to your individual needs.

Your benefits

- Increased product quality & yield
- Maximum accuracy
- Increased equipment life
- Reduced down time
- Reduced operating costs
- High quality maintenance at an affordable price
- All services according to quality standards EN29 001 / EN29 004 (ISO 9001)
