

Sanimix – Paddle and Chopper Mixer.

MRMA

Fast and hygienic mixing. Guaranteed top mixing quality.

Outstanding mixing accuracy and a high level of sanitation are the hallmarks of the Sanimix. This rugged stainless Paddle or Chopper Mixer is distinguished by its short mixing and discharge times.

Whether powders, flakes, or whole grains are to be processed – the high-capacity Sanimix batch mixer mixes a wide variety of materials within a short time and with a high level of sanitation, producing mixes of top quality. The Chopper Mixer guarantees a homogeneous mixture when solids such as blockfat are added.

Your benefits:

- excellent mixing accuracy
- short mixing and discharge times
- easy cleaning
- rugged stainless construction

Outstanding Mixing Results. Consistent and Reproducible.

Consistent and reproducible mixing

Geometry of mixing trough and tools ensure consistent, reproducible mixes of high accuracy.

Fast mixing and discharge

The horizontal mixing process and the large outlet perceptibly reduce the mixing and discharge times.

Solid and rugged design

The solid stainless construction is perfectly matched to the forces generated inside the mixer.

Hygienic and easy to clean

The gap-free and self-discharging mixing chamber prevents product cross-contamination. In addition, it is easy to access and clean thanks to its large service door.

A mixer for all needs

Sanimix is available as a Paddle or Chopper Mixer in four sizes ranging from 500 to 4000 liters. The mixer can be configured to suit specific applications thanks to its available options, thus accommodating a wide variety of needs.
