

Dehuller Kits.

Spare and wear parts packages for the MHSА dehuller.

Higher hulling degree thanks to new impact ring design.

Customer Service

The Bühler MHSА dehuller is a key machine in the hulling process and capable of processing up to 4 metric tons of product an hour.

A consistently high throughput and yield are therefore prerequisites for your business success. If a spare or wear part is missing at the crucial moment, this may cause high financial damage.

In order to prevent an outage from happening in the first place, it is advisable to have the relevant spare or wear parts on stock at your local site.

The Bühler Dehuller Kits offer you the optimal basic equipment for this purpose. They have been carefully put together on the basis of the vast experience of the experts at Bühler.

Benefits

- The **service life** of the impact ring is up to 1500t when processing oats.
- The **hulling degree** achieved when using the new impact ring design may increase up to 10% in comparison to other dehullers.
- Bundling the wear and spare parts into packages allows the **ordering efficiency to be increased**.
- All the required wear and spare parts are **immediately available** at your site.

Wear part kit + spare parts kit = Maximum uptime.

Wear part kit	Number of units / package (for one MHSА dehuller)	Order No.	Quantity for quotation
Service kit for impact ring Pre-assembled impact rings including bolts	5	MHSA-10607-001	
Service kit for impact ring (6% discount) Pre-assembled impact rings including bolts	20	MHSA-10622-001	
Service kit for impact ring (11% discount) Pre-assembled impact rings including bolts	50	MHSA-10708-001	
Service kit for rotor Rotor fitted with segments and balanced, including bolts and seal	1	MHSA-10606-001	

Spare parts kit	Number of units / package (for one MHSА dehuller)	Order No.	Quantity for quotation
Service kit for main motor 50Hz, 230/400V Motor and shaft seal	1	MHSA-10609-001	
Service kit for main motor 60Hz, 460V Motor and shaft seal	1	MHSA-10610-001	
Service kit for main motor 60Hz, 575V Motor and shaft seal	1	MHSA-10611-001	
Service kit for lid seal Seal and adhesive	1	MHSA-10608-001	

Spare parts (detached parts)	Number of units / package (for one MHSА dehuller)	Order No.	Quantity for quotation
Lifting motor 63M, 230/400V, 50Hz	1	UXM -12037-271	
Lifting motor 63M, 460V, 60Hz	1	UXM -12037-971	
Lifting motor 63M, 575V, 60Hz	1	UXM -12037-972	
Lifting spindle	1	MHSA-10485-001	
Inductive proximity switch	2	UNE -26311-011	
Gas compression spring 1300 N, stroke 250	2	UXF -96045-701	
Hinge	1	MHSA-10567-001
